SAMAY NANDANIYA

FULL STACK DEVELOPER | JAVA | REACT.JS | ANGULAR | NODE.JS | MICROSERVICES

samaynandaniya4@gmail.com | +91 7778973118 | LinkedIn: samay-nandaniya

PROFESSIONAL SUMMARY

Full Stack Developer with **4+ years of software development experience** across enterprise web applications and telecom solutions. Currently a System Engineer at Tata Consultancy Services (TCS), working with Java-based microservices architecture and Angular applications. Skilled in React.js, Next.js, Node.js, Express.js, RESTful APIs, secure authentication and automated testing, with experience contributing across frontend and backend development in Agile teams.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Frontend: Angular, React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Backend & Architecture: Java-based Microservices, Node.js, Express.js, RESTful APIs

Databases & Testing: MySQL, Jest, Mockito, Selenium

Tools & Platforms: Git, GitHub, Bitbucket, Jira, Jenkins, Maven, Keycloak, VS Code

PROFESSIONAL EXPERIENCE

SYSTEM ENGINEER | TATA CONSULTANCY SERVICES (TCS) | June 2022 - Present

- Contribute to a telecom project built on a **Java-based microservices architecture**, supporting backend service development and integration.
- Contribute to the development and enhancement of **Angular**-based application features.
- Developed and enhanced enterprise web applications using Next.js and React.js, improving page speed by 30%.
- Designed, developed and maintained 25+ RESTful APIs using Express.js to enable reliable frontend-backend integration.
- Implemented Keycloak authentication and multi-tenant role-based access control (RBAC) for applications serving 10K+ users.
- Built automated tests with Jest and achieved 85%+ unit-test coverage, helping reduce production bugs by 25%.
- Integrated telecom APIs for account management, billing and subscriptions, improving self-service efficiency by 20%.
- Optimized React.js applications through server-side rendering, lazy loading and effective state management.
- Collaborated with cross-functional teams of 30+ members in a SAFe Agile environment across 3 Agile Release Trains (ARTs); reviewed 50+ pull requests and contributed to CI/CD improvements that reduced deployment time by 40%.

SOFTWARE ENGINEER INTERN | PYTHER INNOVATION | January 2022 - June 2022

- Implemented 7+ user roles in a user-management application using React.js and Node.js/Express.js.
- Developed 15+ RESTful APIs for authentication, data processing and database operations.
- Designed and optimized MySQL schemas, improving data-storage efficiency and query performance by 20%.
- Implemented server-side validation and error handling, reducing user-related errors by 30%.
- Built an interactive Google Maps-based application using the Google Maps API and integrated Redux across 20+ components.
- Created and executed 30+ Jest unit tests with 90%+ coverage; collaborated within a 5-member Agile Scrum team and used Git/Bitbucket for version control.

CERTIFICATIONS & AWARDS

- AWS Certified Developer - Associate
- AWS Certified Cloud Practitioner
- Proactive and Growth Mindset - TCS (2023)
- On The Spot Award (Eli - 2022)

EDUCATION

Bachelor of Engineering in Computer Engineering | August 2018 - May 2022

Government Engineering College, Bhavnagar | CGPA: 8.8/10
